
Proposal of Printing Distributor Opportunities

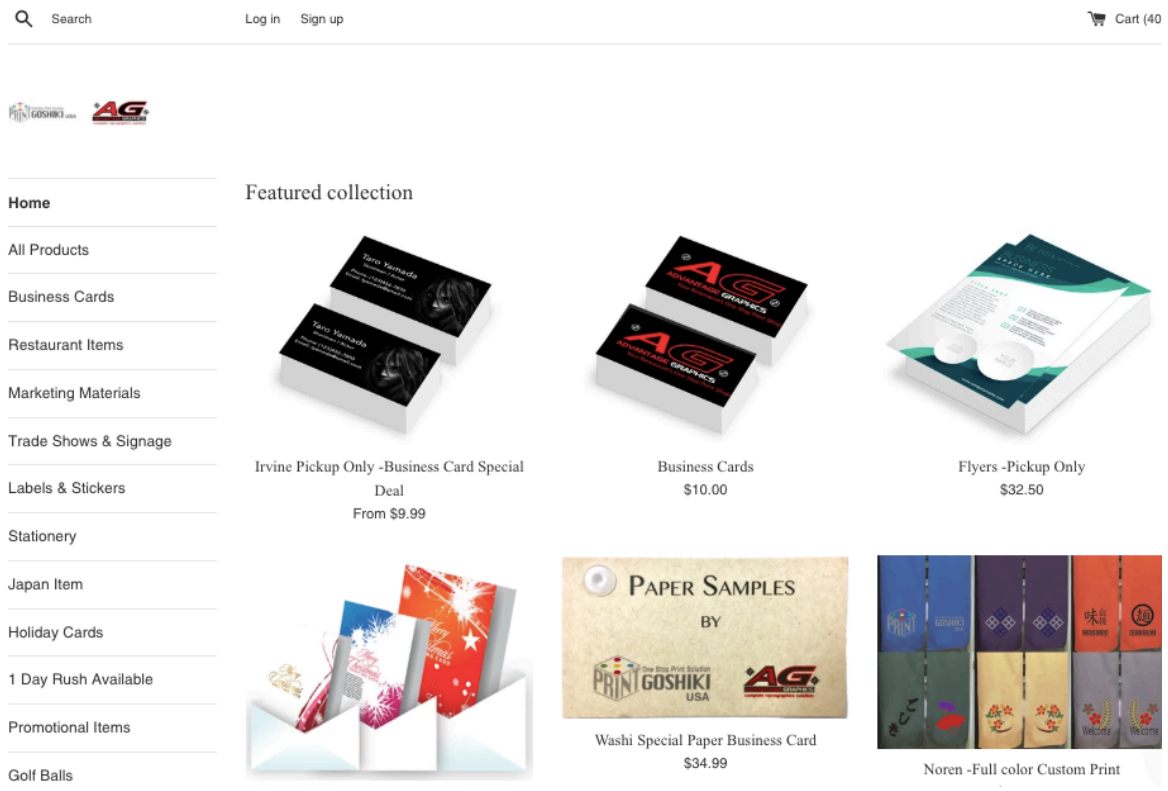
GOSHIKI USA

About Printing Distributor

Would you like to incorporate a print ordering service as part of your service?

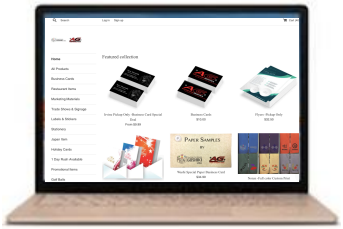
We offer an online shop site with print items and price lists, so please sell your prints as a service of your company.

The online shop has a price list in advance, and this will be the partition price for your company. Change the retail price to your company and sell it. You can also freely choose the products to be listed according to your needs.

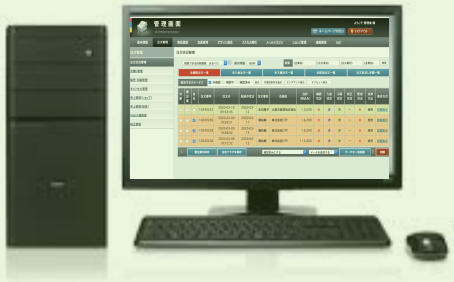


Operation Flow

When your customers place an order from your online shop site
We receive orders, and after that we do everything from production to shipping.
We also handle customer inquiries, email correspondence, and shipping emails.
Your company announces your online shop site and promotes the order
That is it.



Order from WEB



Confirm by System
* Also available for distributors

We perform from production to shipping

Delivery to customers
